

## PRODUCT ANNOUNCEMENT

# PURCHASE ORDER FINANCING

Aurora Consulting announces another innovative financing solution to help you with your business success story.

**WHO you are:** You're selling your finished manufactured products to an end buyer.

**WHAT you need:** Capital for your fulfillment costs, and you need it quickly because of a new, unforeseen customer order or a sudden spike in the sales cycle.

**WHY you want P.O. Financing:** You prefer not to pursue traditional credit financing, its associated costs and document-process and slow timeline to receive approval. You don't want a new equity investment, nor plow through your existing cash. And you don't want to lose lucrative orders, or worse, customers!

**WHERE You Find P.O. Financing:** By Calling us Today! In keeping with tradition of seeking financing solutions, Aurora Consulting has identified the best quality Lenders for Purchase Order financing!

### **HOW You Qualify:**

- Provide your Purchase Orders. These must be firm, non-cancelable orders from creditworthy customers for established product. Your date of delivering the product must be realistically achievable.
- Your Suppliers: These must be dependable and well-established. Your overseas suppliers are acceptable and will be paid by Letter of Credit or cash against documentary collection. Products must be inspected and insurance for shipping is required.

### **WHEN do you inquire:**
